

Corporate Social Responsibility

FY 2025–26

Message

This year Can Fin Homes Ltd. made a significant contribution to the society as a whole, with the successful implementation of a wide spectrum of projects across diverse geographies.

The Company has further strengthened its commitment to responsible corporate citizenship by strategically investing in initiatives that create meaningful and lasting change.

With a total CSR approval of ₹19.47 crores, we directed our efforts toward sectors that matter most to society - education, healthcare, environmental sustainability, renewable energy, sports promotion, animal welfare, women empowerment, sanitation & safe drinking water, and community welfare. Each initiative was carefully chosen to address critical social and economic challenges faced by underprivileged communities, with the objective of fostering sustainable and inclusive growth.

In the education sector, efforts were directed towards improving access to quality learning infrastructure. This included supporting schools with classrooms, furniture, and digital learning tools and educational kits for students, ensuring that children have the resources they need to learn and thrive.

Healthcare activities focused on enhancing medical accessibility and strengthening public health systems by providing essential medical equipment and promoting preventive care.

Environmental sustainability interventions promoted ecological balance through waste management initiatives, tree plantation drives and rainwater harvesting projects to conserve natural resources.

Women empowerment projects aimed at improving livelihoods and creating opportunities for self-reliance, enabling women to build sustainable futures.

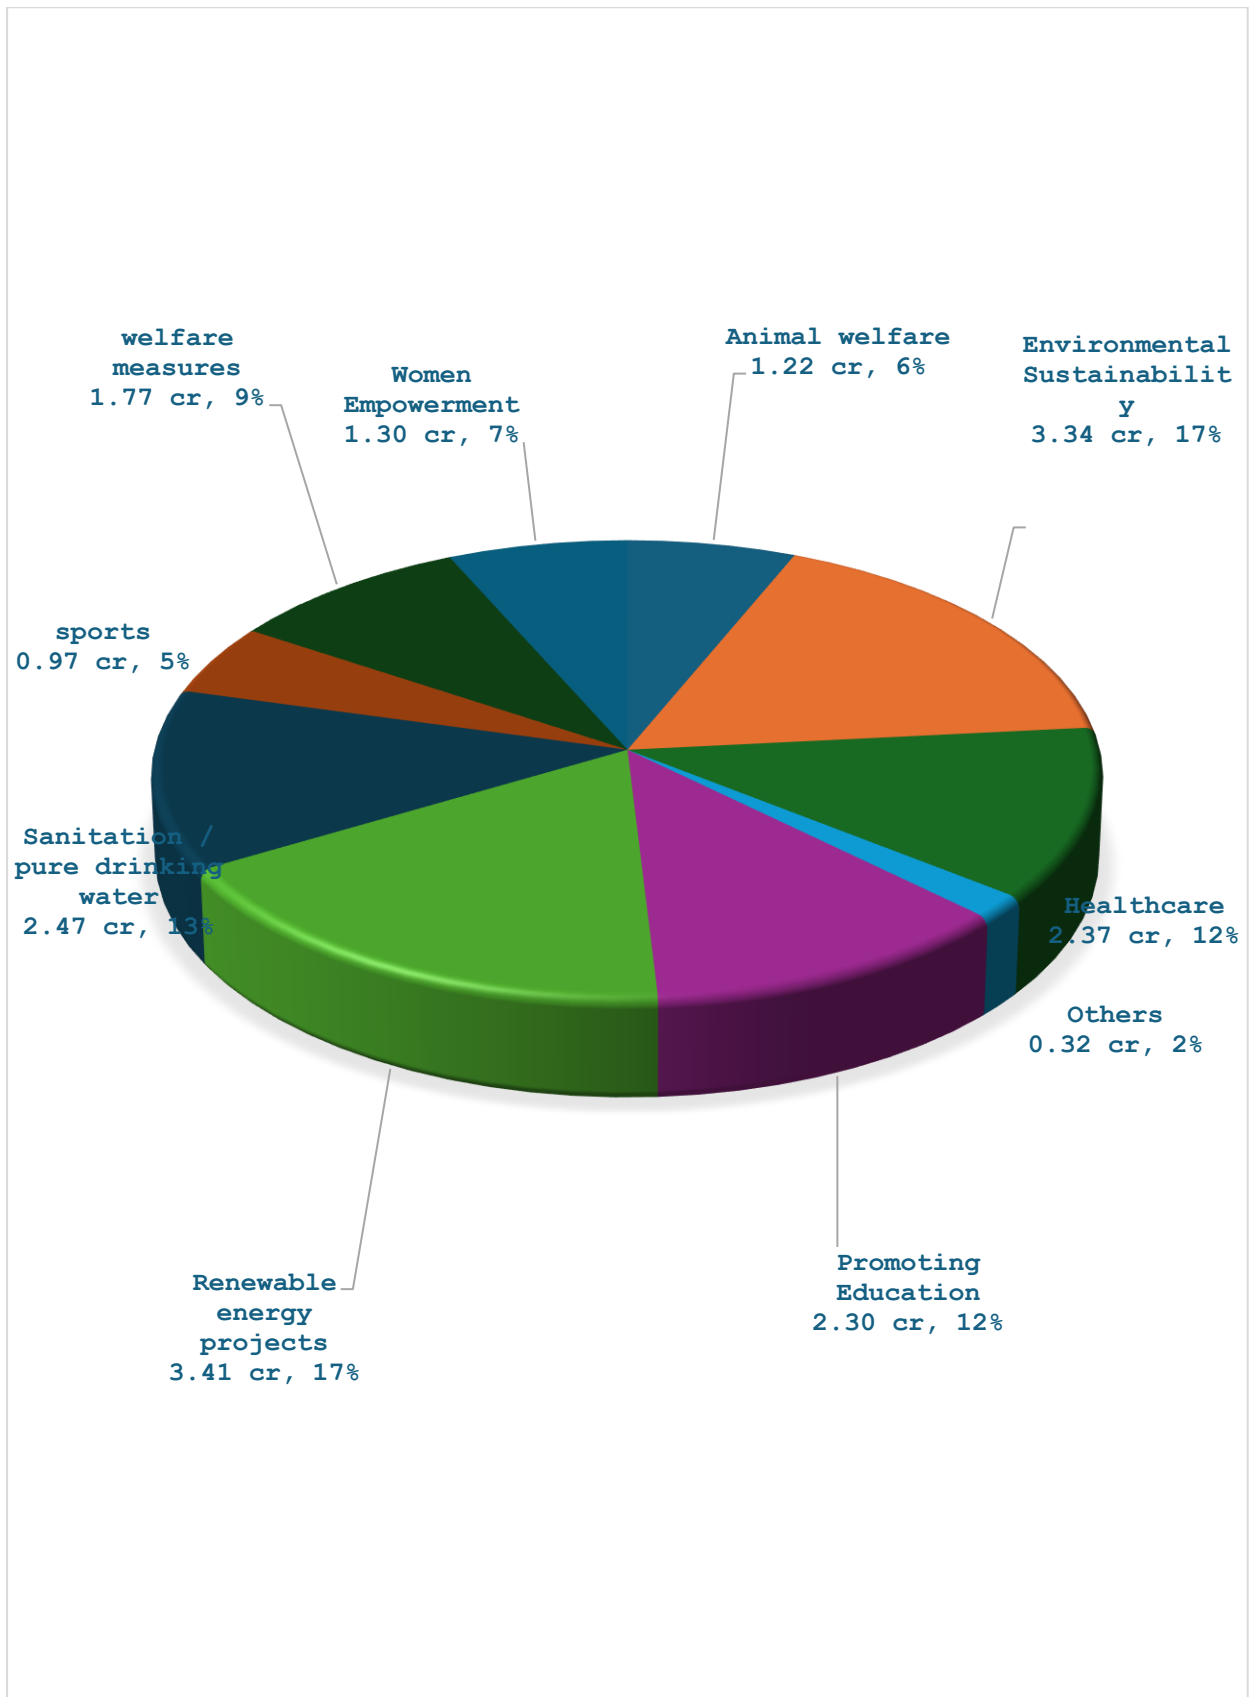

Community welfare initiatives supported holistic development across regions, strengthening local infrastructure and uplifting marginalised communities.

We improved sanitation and drinking water facilities by constructing toilet blocks and installing RO purification systems, fostering healthier communities.

Additionally, we strengthened our commitment to sustainability by deploying solar power systems and adopting clean energy solutions to reduce carbon emissions. To promote sports, efforts were made to build a dedicated court, providing athletes a space to train and develop their skills.

Our commitment to animal welfare was reflected in the construction of shelters for stray cows and the provision of medical equipment to enhance live-stock well-being.

A SUMMARY OF CSR ACTIVITIES- F.Y. 2025-26

SL NO	Branch	Approved CSR amount	Sector	Details of project	Beneficiary name
